

Baptism Class

The class you will be attending in preparation for the Baptism of your child is developed and presented for adults.

Please do not bring infants and/or children.

Experience has shown that their attention span is too short to last the entire class period of approximately one hour and results in irritating disruption for the other attendees and the presenters. In the event you have difficulty getting someone to care for the child/children we recommend that you consider alternately attending the class (one parent can attend class the next month.) or schedule the class when you can get a babysitter. Your serious consideration to this matter is greatly appreciated.
